For permit applications, if there are no known localities as confirmed by the relevant museums, you're now done with paleo requirements. Definitely give me a call if you find anything interesting, of course-- I'm happy to look at photos or run out to the site if possible if you think you have fossils on site!

Hi Nicole,

What needs to happen next relative to Paleo clearance documentation for the Mountain Crossing Project? I've forwarded you 2 negative findings emails this morning.

Please advise.

Fitz

Hello Mike,

I have completed our records search and the Museums of Western Colorado has no paleontological localities from Archuleta County, Colorado. Good luck with your work.

Julia

Subject: Paleo Records Review Request for a CDOT right-of-way (ROW) application in Archuleta County, Colorado

Importance: High

Hello Talia, Veronika and Julia,

This email to request a paleo records review in support of a CDOT environmental clearance near Pagosa Springs. I have copied Nicole Peavey the CDOT staff paleontologist should you have any questions directly to CDOT regarding process.

I'm a consultant preparing the environmental clearance documentation on behalf of the applicant.

Attached is a general area map showing the project site on the SE corner of the US Highway 160 and US Highway 84 intersection. Archuleta County, Colorado. Section 18, Township 35N, Range 1W; on the Jackson Mountain, CO 7.5-min USGS Quadrangle. I've requested

Provided below is the direction I was given by CDOT regarding making this request.

<image005.png>

Please feel free to contact me directly if you have any questions or if registration or fee is required. Thanks for your assistance with this request.

Mike
